To Whom It May Concern:

Please accept this email as a strong recommendation for Mr. Jared Huffstutler. Jared and I work for Trilogy Education and he supports my students as a Tutor and a Teaching Assistant.

Jared is one of the most requested tutors for students across the United States. His ability to break hard concepts into smaller, easier steps makes him a great assistant. He has great knowledge and experience in CSS3, HTML5, JavaScript, and AJAX. He has developed websites and applications as part of his experience. His practical experience has proven to be very helpful in the classroom and professional world as well.

As a person, I have found Jared to be competent, compassionate and always willing to take the extra step to help in any situation. His drive is commendable as is his thirst for more knowledge. Any company will find Jared to be an asset to their projects and organization.

If I can be of more assistance, please contact me. I will be pleased to help Jared in any possible way.

Respectfully,

H. Jeffrey Turner
